Selection and Award Requirements

- Eligibility and Exclusion Criteria (online declarations thro' EPPS)
- European Single Procurement Document (ESPD)
- Technical and Professional Ability
 - Value of services of a similar nature effected during the last 3 years, the minimum aggregated value must not be less than €25,000 in total for the quoted period
 - Number of services of a similar nature effected during the last 3 years, the minimum number of which must not be less than 2 for the quoted period

Terms of Reference

- This DPS is required to enable the procurement of a number of services to assist MITA in the modernization initiative and to support current ICT applications. The successful supplier's resources will be allocated with various project teams depending on MITA's needs.
- Assignment term duration issued under the Specific Contracts shall range from a minimum of six (6) months to a maximum of three (3) years with a pre-operational period of not more than three (3) months depending on the complexity of the task/solution commissioned. The established pre-operational period is necessary to gain the required business knowledge and familiarisation.
- The maximum estimated value of the specific contracts envisaged for the total term of this DPS shall not exceed €2,745,600 (net of VAT).

Services to be procured through Specific Contracts

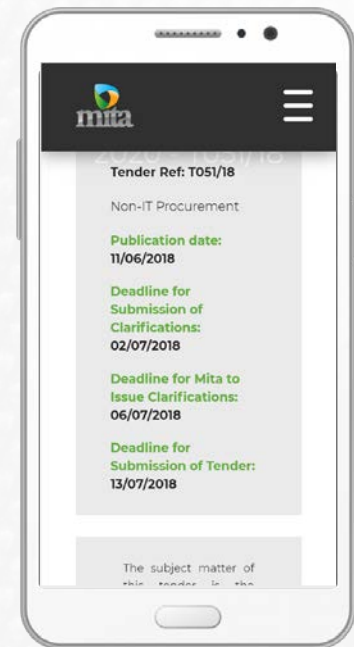

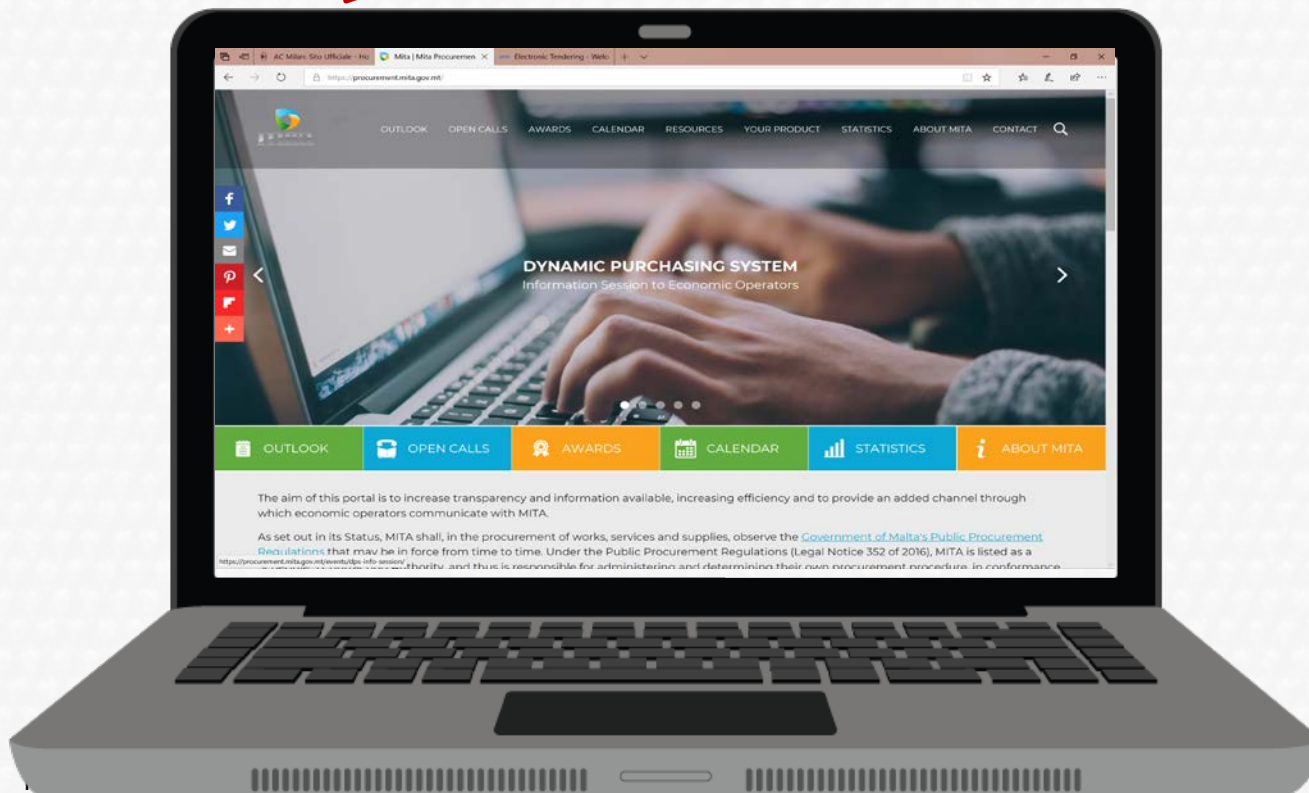

- Through the Specific Contracts issued under this DPS, the following services may be procured:
 - Software Development
 - Software/Solutions Architecture
 - Quality Assurance
 - Requirements Analysis (may also include reverse engineering from existing source code base to implement new platforms)
 - Provide support on current ICT applications maintained by MITA
- The provision of the services are to be provided either from MITA premises or from the supplier's premises or from both, based on MITA's discretion and the services being procured. It has to be noted that all meetings shall be held at MITA premises or at MITA Clients' premises.

Software Technologies

- The software technologies will vary from one Specific Contract to another - including, but not limited to:
 - PowerBuilder
 - Java (Spring, Java EE framework)
 - Dot NET, C#
 - Angular, JavaScript, HTML5, CSS
 - PL/SQL, T-SQL
 - Microsoft SSAS, SSIS, SSRS
 - Microsoft Dynamics CRM development
 - Oracle / MySQL / SQL Server
